

Nicolas Kelley

Software & Biomedical Engineer

Experience

Software Development Engineer - Solera Inc, Mexico City
04/2023 - Currently Employed

Full Stack Developer:

- **Service Migration:**
 - Migrated applications and services from .NET Framework 4.8 to .NET Core 10, leveraging the latest technologies to improve performance, scalability, and maintainability.
- **UI Design and Development:**
 - Developed and maintained client-side and server-side applications. Skilled in creating responsive user interfaces and implementing interactive features.
- **Database Management:**
 - Experienced in database design, management, and optimization. Worked with SQL databases to ensure efficient data storage and retrieval.
- **API Integration and Development:**
 - Integrated third-party services through APIs (eBay API) and developed custom APIs for web applications.
 - Managed API deprecation changes, ensuring seamless transitions and minimal disruption to applications.
- **Testing and Debugging:**
 - Conducted comprehensive manual testing to ensure efficient, and secure applications.
- **Collaboration and Project Management:**
 - Collaborated with cross-functional teams to deliver projects within deadlines. Used Agile methodologies and participated in sprint planning, stand-ups, and retrospectives.
- **Continuous Learning and Adaptation:** Kept up-to-date with emerging technologies and trends in web development. Adapted and integrated new technologies to enhance application performance and user experience.

Support Analyst - Odoo, Mexico City
09/2022 - 04/2023

- **Data Analysis:** Analyzed client data to identify usage patterns, inefficiencies, and areas for improvement. Generated reports to assist clients in decision-making processes.
- **Live Chat:**
- **Documentation:**
- **Client Support:** Provided efficient and effective support to clients using Odoo's SaaS platform. Addressed and resolved complex issues related to application functionality, system configuration, and usage.
- **Training:** Conducted training sessions for clients and peers, helping them to understand and effectively use Odoo applications.

Biomedical Engineer - Starmédica Centro & Instituto Nacional de Pediatría, Mexico City
06/2021 - 06/2022

- **Business Flow:** (agregar algo de pedido de insumos, manejo de equipo, etc)
- **Database Management:** Familiar with managing and maintaining SQL databases, including creating and updating tables, writing basic queries, and ensuring data accuracy
- **Operational Expertise:** Played a crucial role in various surgical procedures by skillfully operating specialized surgical equipment. Ensured the smooth and effective functioning of equipment during critical operations.
- **Preventive and Corrective Maintenance:** Conducted regular preventive maintenance and timely corrective repairs of medical devices to ensure their reliability and optimal performance in clinical settings.
